

# Hemant Pawar

Citizenship : Indian • Date of birth : 12 November 1987

## Contact

**Tel :** +91-9996062170

**Email :** hemant@hemantpawar.com

**Homepage :** www.hemantpawar.com

## Address

#520, 16th Cross, Indiranagar, Bangalore (Karnataka) - 560038

## Profile

**Objective** I am seeking a position where I can effectively contribute my skills as Software Professional, possessing competent Technical Skills.

## Experience

**ILANTUS Technologies**  
(Sept., 2014 – Oct., 2015) Working as a **Sr. Software Engineer** in **Ilantus Technologies Pvt. Ltd., Bangalore** in products department and responsible for developing and managing the browser extension for Firefox and Google Chrome.

**QScript**  
(July, 2013 – July, 2014) QScript (*a market research B2B startup*) incubated from **iAccelerator, CIIE, IIM Ahmedabad** (2013 batch). I was with them during incubation program where along with some other tasks like **QScript compiler** development etc., I was the guy who was responsible for building our **PhoneGap** Android App.

**Freelancer**  
(August, 2009 – Present) I started freelancing during my college days. I develop **extension for Firefox & Google Chrome** (mainly in JavaScript) and one time I was the ranked no. 1 freelancer in browser extension category for almost a year (this is the biggest freelancing website). I completed **30+ projects** successfully as a freelancer.

## Key Skills

Proficient or familiar with a vast array of programming languages, concepts and technologies, including:

- JavaScript, CSS, HTML5, JQuery, JSON, XML, WordPress, SEO
- Firefox add-ons, Google Chrome extensions, Greasemonkey user scripts, PhoneGap
- C, C++, C#, Visual Basic 6.0
- Flex, Bison (*for compiler construction*)
- Git
- Zsh / Bash
- NSIS (*Nullsoft Scriptable Install System*)
- AutoIT

## Projects I've Done

- 1) Built a **PhoneGap** Android App and made some contribution in QScript compiler to make this app capable of directly taking the output from compiler for **QScript** ([www.qscript.co](http://www.qscript.co)).
- 2) Created an Internet Explorer & Firefox plugin which provide the functionality very similar to Skype plugin & allows to integrate the communication application files with the web browser for **Bridge Communication, Fargo, USA** ([www.ndbridge.com](http://www.ndbridge.com)).

## Projects I've Done

- 3) Developed a Firefox Status bar extension which shows the various SEO statistics of the current URL in the status bar of the Firefox by providing a very simple but effective GUI, for **Domain Hammer Inc., Brazil** ([www.domainhammer.com](http://www.domainhammer.com)).
- 4) Built a robust Kiosk system over the top of Firefox on Ubuntu 12.04 which restricts the users to break the Kiosk environment and can be managed by a remote server for **Infoknowlogy, South Africa** ([www.infoknowlogy.co.za](http://www.infoknowlogy.co.za)).

And completed **30+ projects** successfully in different domains as a freelancer:
