Address

#B-405, GurgaonOne, Sector 84, Gurgaon (Haryana) – 122004

Profile

Objective | I am seeking a position where I can effectively contribute my skills as Software Professional, possessing competent Technical Skills.

Experience

Advertise.com
(April, 2018- Nov., 2019)

Sr. Software Engineer in **Advertise.com (Advertise Technologies Pvt. Ltd.), Hyderabad.** Responsible for managing their browser extension and other products.

ILANTUS Technologies
(Sept., 2014 – Oct., 2015)

Working as a **Sr. Software Engineer** in **Ilantus Technologies Pvt. Ltd., Bangalore** in products department and responsible for developing and managing the browser extension for Firefox and Google Chrome.

QScript
(July, 2013 – July, 2014)

QScript *(a market research B2B startup)* incubated from **iAccelerator, CIIE, IIM Ahmedabad** (2013 batch). I was with them during incubation program where along with some other tasks like **QScript compiler** development etc., I was the guy who was responsible for building our **PhoneGap** Android App.

Freelancer
(August, 2009 – Present)

I started freelancing during my college days. I develop **extensions for Firefox & Google Chrome** (mainly in JavaScript) and one time I was the ranked no. 1 freelancer in browser extension category for almost a year (this was the biggest freelancing website at the time). I completed **50+ browser extension projects** successfully as a freelancer, at: **(https://www.freelancer.com/u/hemantonpc.html)**

Key Skills

Proficient or familiar with a vast array of programming languages, concepts and technologies, including:

- JavaScript, ReactJS, TypeScript
- Google Chrome extensions, Firefox add-ons, Greasemonkey user scripts, PhoneGap
- Visual Basic 6.0, MATLAB
- Flex, Bison (*for compiler construction*)
- Git
- Zsh / Bash
- NSIS (*Nullsoft Scriptable Install System*)
- AutoIT

Projects I've Done

1) Built a **PhoneGap** Android App and made some contribution in QScript compiler to make this app capable of directly taking the output from compiler for **QScript** (www.qscript.co).

Projects I've Done

2) Created an Internet Explorer & Firefox plugin which provide the functionality very similar to Skype plugin & allows to integrate the communication application files with the web browser for **Bridge Communication, Fargo, USA** *(www.ndbridge.com)*.

3) Developed an Firefox Status bar extension which shows the various SEO statistics of the current URL in the status bar of the Firefox by providing a very simple but effective GUI, for **Domain Hammer Inc., Brazil** *(www.domainhammer.com)*.

4) Built a robust Kiosk system over the top of Firefox on Ubuntu 12.04 which restricts the users to break the Kiosk environment and can be managed by a remote server for **Infoknowlogy, South Africa** *(www.infoknowlogy.co.za)*.

And completed 50+ projects successfully in different domains as a freelancer:
